PROFESSIONAL SUMMARY

I am an aspiring Java Back-end Developer. Collaborative, team player who can work with teams and be productive. Interested in obtaining a Software Developer position. Always like to learn new skills and technologies.

PROJECTS

BESTBUY.COM (Clone)
https://github.com/Therobo77/BESTBUY.COM.git
bestbuy.com is an online store to buy all types of tech-related products.

Features
- All basic features like animation and designs.
- End-to-end tech product purchasing flow in the clone site.

TECH-STACK
HTML | CSS | JAVASCRIPT
It was a Collaborative Project of 5 members and I was the co-leader in this.

Area of Responsibility
- Was responsible for creating the Front page and its features like drop-down in profile and menu section.
- Also Created the Header section which was used in all the pages.

RODAN+FIELDS (Clone)
https://github.com/brajesh623/frightened-pump-7548
rodanandfields.com is a beauty product brand which sells its products online and we made a clone of its website.

Features
- All basic features like animation and designs.
- End-to-end tech product purchasing flow in the clone site.

TECH-STACK
HTML | CSS | JAVASCRIPT
It was a Collaborative Project of 5 members and I was the group's team leader.

Area of Responsibility
- Was responsible for creating Product page and its functionality like adding to cart and all other related features.
